

Georeferencing for Research Use Survey Follow-Up Survey

Thanks again for participating in our [GRU workshop](#) this past October. We are very pleased that you were able to attend. Now that a few months have passed, we'd like to follow up with a quick survey. Specifically, we are interested in learning if you have personally used or plan to use any of the resources or materials we presented during the workshop, have shared the resources with colleagues, or taught others-- formally or informally--some of what you learned at the workshop. The survey should take 5 to 10 minutes to complete. If at all possible, please respond by February 2, 2017.

YOUR PERSONAL USE

Please indicate whether your use of the resources listed below has increased, decreased, or stayed the same since the GRU workshop.

	Increased	Decreased	Stayed about the same	Not applicable/Have not used
